

What can \$500,000 buy?

The American Family Association gave \$500,000 to Yes on Prop 8 a political campaign that ultimately denied LGBT people in the State of California the right to marry.

Here's what the AFA could've done with that \$500,000 instead of promoting hate and inequality:

- ✓ Feed over 4,100 starving children around the world **every day for one year**.
www.feedthechildren.org
- ✓ Protect 50,000 families in Africa from Malaria with mosquito nets.
www.nothingbutnets.org
- ✓ Build over 8 houses for homeless families in the United States or approximately 625 houses for homeless families around the world. www.habitatforhumanity.com
- ✓ Provide a year's supply of desperately needed medication to 5,000 HIV+ people around the world. www.who.int
- ✓ Buy books and classroom materials for **every single classroom in Mississippi** asking for assistance on www.donorschoose.org and still have **\$479,690** left over!!
- ✓ Help 2,500 elderly and disabled people in the Mississippi Delta pay their utility bills.
www.southerngeff.org/projectdeserve.php
- ✓ Give over 64,100 hungry people in Mississippi a meal.
www.msfoodnet.org/
- ✓ Screen 100,000 women in India for cervical cancer. www.globalgiving.com
- ✓ Train 25,000 volunteers to work on a crisis line that serves domestic violence and child abuse victims in the US and 174 other countries. www.866uswomen.org/
- ✓ Teach nearly 300,000 Afghan women to read. www.creatinghope.org
- ✓ Provide job training for 10,000 at-risk teenagers in San Francisco www.cywd.org/
- ✓ Make clean drinking water available to nearly 17,000 people in Africa and Asia.
www.wateraidamerica.org/
- ✓ Completely fund a project educating young men about preventing violence against women, and create 5 more projects just like it! www.mencanstoprape.org/

AFA we ask you: "Why are you spending your money preventing equal rights for all families when families around the US and the world are homeless, starving, and dying?"
